Core Values

We strictly stand by the 3 C's of CPH:

Curated (Quality & Exclusivity)

We are committed to achieve excellence in everything we do - maintaining strict vetting and onboarding standards for coaches and academies. We limit our pre-launch rollout to a core founding group of 100 select providers.

Connected (Trust & Agency)

We place special emphasis on bypassing administrative friction and operational hurdles, allowing parent and athlete communities to connect and transact directly with coaches.

Compliant (Privacy & Security)

We craft designs and backend architectures thoughtfully in order to promote absolute database security, strict zero-PII storage compliance, and direct secure database access.

Mission

> Providing a secure, trusted, and highly curated space for elite youth sports trainers to scale their booking yield and connect directly with parent/athlete communities.

Vision

> Striving to elevate the standards of youth sports coaching by putting administrative operations on autopilot, allowing coaches to focus entirely on training and mentorship.

The Logo

Logo Concept

The logo shows a clean geometric hub integrated within the structural lines of "CPH". The form depicts dynamism and connection, and the colors represent the tech-athletic focus of the brand.

The sports marketplace will be used by trainers, parent groups, and youth athletes of varying backgrounds, and this logo aims to capture that diversity and energy in a singular, cohesive hub mark. The ascending lines symbolize peak performance and progressive development.

Primary Colors

Our colors represent CPH's tech-athletic heritage. They must be used exactly as defined below to maintain visual consistency:

M3SH Neon Cyan

#00E5FF

RGB: 0, 229, 255

CMYK: 70% 0% 0% 0%

GTM Dark Slate

#0B0F19

RGB: 11, 15, 25

CMYK: 92% 78% 56% 70%

CPH Elite White

#FFFFFF

RGB: 255, 255, 255

CMYK: 0% 0% 0% 0%

Steel Gray

#64748B

RGB: 100, 116, 139

CMYK: 54% 41% 32% 5%

The Gradient

The gradient is a huge part of the visual language of the brand and we plan to use it everywhere on the website and digital collaterals.

The places where the gradient isn't possible, the primary colors (such as GTM Dark Slate or Neon Cyan) will be given preference to ensure readability and structural presence.

The Tagline

Trust the Training.

Own the Game.

Tagline Application

The tagline should be locked up beneath the CPH wordmark using high letter spacing, or placed as a standalone visual element on marketing material.

TRUST THE TRAINING. OWN THE GAME.

Typeface: Logotype

The wordmark logotype text "CPH" must be set in one of the approved options to maintain structural harmony:

FONT NAME	WORDMARK STYLE	VISUAL IMPACT
Space Grotesk (Rec.)	**CPH**	Modern geometric sans-serif projecting technological excellence.
Montserrat	**CPH**	Classic geometric structure projecting stability and trust.
Outfit	CPH	Sleek curves projecting premium quality and accessibility.

Typeface: Site & App

Poppins will be used as the primary typeface on site and in app to ensure maximum legibility and visual elegance.

Poppins Regular & Light

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890 @#$%&

For data-heavy layouts, pricing grids, and coordinate telemetry, JetBrains Mono is the secondary monospace font of choice.

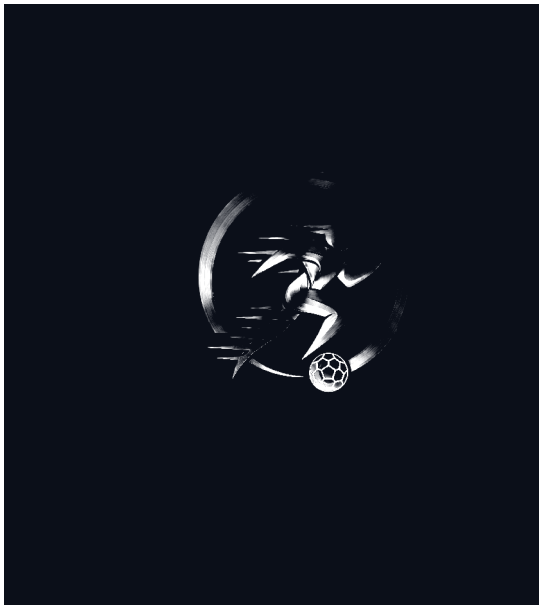

JetBrains Mono

```
ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890 @#$%&
```

Logo Symbol

The CPH logo symbol can be used independently to represent the brand without the wordmark text. It should however be used only on high-contrast white or solid black/slate backgrounds.

Space Around

Always leave sufficient breathing space around the logo and symbol and never crowd it. The minimum clear space must be equal to the height of the letter "C" in the wordmark.

Alternate Logos

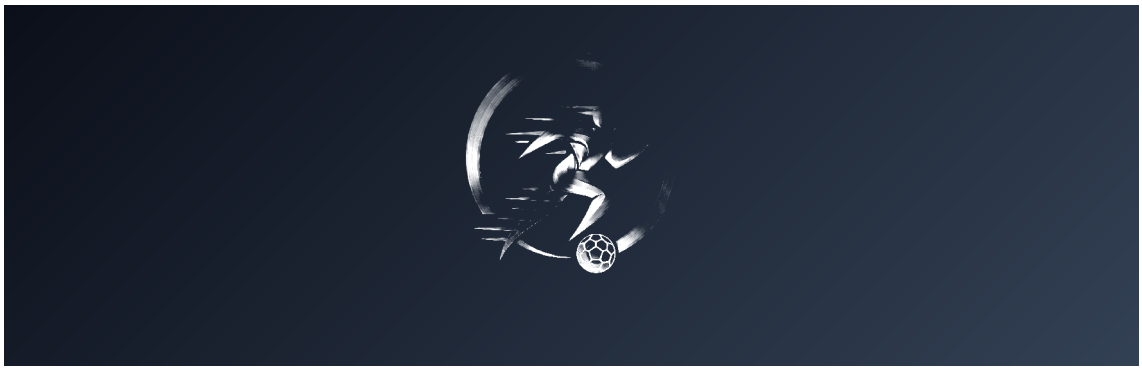

The solid black and solid white monochrome versions are acceptable to be used when the brand gradient or primary color scheme isn't feasible.

Logo Application

The monochrome white logo and simple symbol should be used on photos. Ensure the logo is placed in high-contrast areas of the image to guarantee readability.

Section 1.1: Brand Voice & Persona

Our brand voice represents elite athletics coupled with data security. It is structured around four pillars:

1. Vetted & Elite

All copies must highlight high standards, curating select athletic trainers and professional cohort benchmarks.

2. Direct & Frictionless

We avoid complex operational overhead. The focus is on connecting athlete parents directly to trainers.

3. Security-First

We reassure users about direct private databases, zero PII retention, and complete backend control.

4. Athletic Precision

Our message is performance-driven and focused. Trust the training, own the game.

Section 1.2: Chatbot Widget Branding

The chatbot acts as the "Interactive Tour Guide" for pre-launch users. Its design reflects the CPH identity guidelines:

Floating Trigger Button

Positioned bottom-right of the screen. Utilizes the CPH gradient text lockup and Neon Cyan glow effect.

Chat Window Styling

- **Background:** Glassmorphic design using backdrop-blur filter on white background (light theme).
- **Headers:** Slate-900 background with Neon Cyan logo emblem.
- **Typography:** Poppins Light (300) for incoming text, Poppins Medium (500) for user controls.

Lead Onboarding Flow

Conversations must guide users organically to capture waitlist information (Name, Email, Mobile, Location, and User Role).

Logo Size

The smallest the logo should be represented in print media is defined below. Always preserve structural ratios:

Minimum Logo Mark Only (1.0 inch)

Minimum Logo Symbol Only (0.3 inch)

Minimum Brand Wordmark Only (0.5 inch)

CPH

Logo Size

The smallest the logo should be represented on screen is defined below. Always preserve resolution density:

Minimum Logo Mark Only (100px)

Minimum Logo Symbol Only (60px)

Minimum Brand Wordmark Only (32px)

CPH

Do’s and Don’ts

The logo represents the whole brand and the company. Always maintain certain visual standards to prevent brand erosion:

✓ ✓Approved Proportions

Always maintain standard structural proportions and scale values of the logo.

✗ ✗Never Distort or Rotate

Never stretch or play with proportions. Never tilt/rotate/flip the logo.

Do’s and Don’ts

Maintain clean layouts and font properties. Avoid structural modifications:

✓ ✓Standard Colors & Typefaces

Use the specified Slate/Cyan colors and the designated Poppins/Space Grotesk typography.

CPH

✗ ✗Unapproved Elements

Don’t change the gradient colors, don't change the typeface, and don't make patterns out of the logo symbol.

CPH

Closing Note

The logo is created with a lot of love and consideration and hence we would really appreciate it if it is used in a way it is supposed to be! You can have fun with the logo as long as it doesn't go against this manual.
